Tokio Laughs at Report. (Special Cable to The Times-Dispatch, Copyright, 1904.)

TOKIO, July 13.—It is denied in high quarters here that the Japlanese army has suffered a reverse with heavy losses at Port Arthur. The story, which is repeated here The story, which is repeated here from Europe, that the Japanese have lost 30,000 men is laughed at as absurd. On the contrary, there is good authority for saying the Japanese army in front of Port Arthur is slowly, but surely drawing the line of investment closer and have within the past two or three days captured positions close to Port Arthur and have greatly strengthened their hold

on the city.

News from the headquarters of Oku and Kuroki is of the most encouraging character. Numerous minor engagements have resulted without an exception in favor of the Japanese.

Another Dispatch Tells of Loss of 30,000 Japanese.

(By Associated Press.)

ST. PETERSBURG, July-13.—A special dispatch received from Mukden to-night, dated July 12th, repeals the story of a Japanese repulse at Port Arthur, with the loss of 30.00. The dispatch says:

"News has been received from reliable sources that the Japanese third army, on ich night of July 11th, attacked Port Arthur and was heavily defeated, an immense number heing killed by Russian mines. The total loss is about 30.00."

There was great interest throughout St. Petersburg all this evening for further details of the reported disaster. It has developed that the official report, which was at first supposed to emanate directly from Viceroy Alexieff, was not specifically

The city was thrown into a fever of excitement this afternoon by the news that the Japanese had failed in an assault on the fortress at Port Arthur on Bunday night, having been repulsed with a loss said to reach 30.000.

The original report reached St. Petershurg last night in the form of a newspaper dispatch from Mukden, and was received with incredulity; but at about noon, when Vicercy Alexieff officially tolegraphed the news to the general staff. It created a tremendous impression. It was immediately transmitted to the Official Messenger, and a few minutes afterwards the newsboys were racing through the streets electrifying the crowds with the tidings. Boys were fairly mobbed by people eager to buy the extras.

The members of the general staff do not offer explanations of what Admiral Alexieff means by "Japanejes sources," but they declare that the Vicercy would not have officially reported such important news unless it had reached him from

### Cancerous Ulcers ROOTED IN THE BLOOD.

After the age of 45 or 50, when the vital powers are naturally weaker, it is noticed that a hurt of any kind heals slowly, and often a very insignificant scratch or bruise becomes a bad ulcer or sore. At this time of life warty growths, moles and pimples that have been on the body almost from birth begin to inflame and fester, and before very long are large eating, sloughing ulcers.

Whenever a sore or ulcer is slow in healing then you may be sure something is radically wrong with your blood. Some old taint or poison that has been slumbering there for years is beginning to assert itself, and breaks out and becomes a bad ulcer and perchaps the beginning of Cancer.

These old sores are rooted in the blood, and while washes, soaps, salves, etc., keep the surface clean, they are not healing. A blood medicine to purify and strengthen the polluted blood, and a tonic to build up the general system is what is needed, and S. S. S. is just such a remedy. No poison is so powerful and no germ so deadly that this great vegetable blood remedy cannot reach it, and ulcers of every kind quickly yield to its wonderful curative properties. The Japanese troops sgain exhibited their resourceruiness and courage and the Russians again threw away many lives. The losses cannot be ascertained until the battle-field has been searched. The Japanese are still driving the enemy up the valley. The correspondent of the Associated Press saw enough to justify the estimate that the Russians had more than 200 men killed or wounded, and that the Japanese casualties probably will amount to sixty. The Russians left thirty dead in iront of and in the treach where the attack began. At this point they had an equal number of men severely wounded, and the Japanese took several prisoners and captured one hundred rifles. The Russians were seen carrying away two Japanese who had been either killed or wounded.

or wounded.
Thirty-six Japaness were quartered in a Chinese house near the bottom of a hill and two companies of Japanese soldiers were in a trench a hundred yards leng, located on the summit of the hill, which commanded the approach. Two other companies of soldiers slept near this trench.

Hetween 3 and 4 o clock in the morning, in complete darkness, and with a heavy fog anshrouding the hills, two battalions of the Tonth and Twenty-fourth East Siberian Regiments, together with one hundred cavalrymen, approached the Japanese position. They surrounded the pickets, and outposts in the house and gained a position from which to rush the ironch.
